

Gabriel Kaszewski

SOFTWARE ENGINEER · SYSTEMS & INFRASTRUCTURE

✉ gabrielkaszewski@gmail.com 🏠 <https://gabrielkaszewski.dev> 🌐 GKaszewski 📺 Gabriel Kaszewski

Summary

Systems engineer with 5 years of professional experience. Co-founder of jestzlecenie.pl (registered LLC). Co-author of peer-reviewed research in Nature Portfolio. Ships production systems in Rust and Python from federated social platforms with hexagonal/DDD architecture to enterprise microfrontend shells. Self-hosts all projects on own Proxmox/Docker/Traefik infrastructure managed via Ansible.

Experience

Co-founder & Backend Engineer

<https://jestzlecenie.pl>

JESTZLECENIE SP. Z O.O.

2024 - Present

- Co-founded a local-jobs marketplace, live with 750+ users. Lead the backend — Django/DRF on PostgreSQL + PostGIS (radius and map-viewport geospatial search, trigram full-text, KNN recommendations), Celery/Redis, real-time messaging, moderation, notifications — and own infrastructure and deployments end to end: Docker behind Traefik, GitHub Actions CI/CD, Prometheus/Grafana. Two years in production, no ops team.

Software Engineer

Remote | Warsaw, PL

DIGIMONKEYS (CLIENTS: WPP / CHOREOGRAPH / WAVEMAKER, GIAP)

May 2021 - Present

WPP — Backend & Infrastructure (Sep 2023 - Present)

- Designed and shipped backend services and internal tools in Python (FastAPI, Django), deployed to Kubernetes across GCP and Azure.
- Architected microfrontend platform using Angular and Module Federation, unifying standalone tools into a single enterprise shell.

GIAP — GIS Engineering (May 2021 - Feb 2023)

- Optimized PostGIS/PostgreSQL cross-database queries using CTEs — reduced execution from 5+ minutes to under 15 seconds.
- Built a public GIS web application for the City of Gdańsk (<https://geogdansk.pl>) with React, TypeScript, and ArcGIS JS API.

Projects

Movies Diary

<https://movies.gabrielkaszewski.dev>

SELF-HOSTED FEDERATED MOVIE DIARY — RUST

2026

- Hexagonal architecture (DDD), 37 crates — swappable adapters for SQLite/PostgreSQL, filesystem/S3, in-process/NATS event bus. ActivityPub federation (reviews appear on Mastodon), Jellyfin/Plex webhooks, full-text search, React SPA, OpenAPI docs.

Thoughts

<https://thoughts.gabrielkaszewski.dev/>

FEDERATED MICROBLOGGING SERVER — RUST, NEXT.JS FRONTEND

2025 - Present

- Full ActivityPub implementation with NATS JetStream fan-out to a separate worker. Built on k-ap — a reusable AP protocol layer I extracted once both projects needed the same plumbing, now at v0.5.0 across 13 tagged releases.

Skills

Languages

Rust, Python, TypeScript, C#, C++

Backend & Infra

Axum, FastAPI, Django, Celery, Docker, Kubernetes, Ansible, Proxmox, Traefik

Data & Messaging

PostgreSQL, SQLite, PostGIS, Redis, NATS JetStream, S3

Frontend

React, Next.js, Angular, TailwindCSS

Platforms

GCP, Azure, GitHub Actions, GitLab CI

Spoken

Polish (Native), English (C1)

Education

University of Gdańsk

Gdańsk, PL

B.S. IN BIOINFORMATICS

2021 - 2025

- Thesis:** “Modeling evolutionary processes using cellular automata”
- Publication:** Co-authored in Nature Scientific Reports (DOI).

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).
